

# CPR Defends Kootenay Line

NELSON (CP)—Defence of the Canadian Pacific Railway's passenger service on its Kettle Valley line was made on behalf of the company Tuesday as a hearing by the Board of Transport Commissioners into complaints regarding passenger service on the route continued.

In his opening address, K.D.W. Spence of the CPR legal department noted that for the past several years, people have been using the railways "as less as a means of transportation."

"We are losing some \$333,000 per year on passenger service across Canada," he said. "In 1957, we were considering dropping all passenger service on our lines."

"There was not enough traffic to justify more than two trips each way per week on the line. We have undergone heavy expenses for protection of the line. We do not feel that we should undergo any more."

L. R. Smith, general superintendent of the CPR's B.C. district said that the company went to considerable expense in an attempt to build up passenger travel on the Kettle Valley line, but the effort was not successful. After a study completed in 1957, it was decided that freight would be transported by truck and passenger service by rail diesel car.

Five of the cars were purchased. Stopovers at Nelson and Penticton were made necessary by a series of bombings of the rails, road bed and bridges in the area. A curfew was placed on trains by the company.

Special precautions were taken between Trail and Nelson to allow freight trains to run 24 hours a day.

Mr. Smith admitted that the West Kootenay was one of the most productive areas as far as freight revenue was concerned and that installation of the new pulp mill at Castlegar would increase that revenue.

He felt there was reason to believe that bombing would increase in the future, although he did not enlarge on this remark.

## ESCAPES TRAIN

WEST VANCOUVER (CP)—Newspaper photographer Don McLeod jumped from his stalled car seconds before it was demolished by a Pacific Great Eastern Railway passenger train at a level crossing Tuesday night. He was not injured.

VALUABLE PAINTING VANCOUVER (CP)—Horst Koehler, North Vancouver radio announcer, said Tuesday he has been offered \$3,000 by Seattle art dealers for a painting by Dutch artist Adrian van Oosted which he purchased for \$28 last week at an auction sale here. Koehler

# Westminster Man Killed

NEW WESTMINSTER (CP)—Berg Breiner, 56, of Nearby Richmond was killed early today when crushed between logs at a plywood plant. Breiner apparently slipped while clearing a cable from a chute where logs are peeled of bark.

# Prince Rupert Riot Inquiry Urges Indian Act Review

PRINCE RUPERT (CP)—A committee investigating the riot here Aug. 3, 1958, reported Tuesday that white persons who capitalized on discrimination against Indians and incited them to "acts of defiance" were partly responsible for the disturbance.

The report of the three-man committee said activities of this group of white persons constituted one of several conditions which led to the three-hour riot in which 20 persons were injured.

It suggested that a federal-provincial royal commission examine the federal Indian Act and that all forms of discrimination against Indians, including certain provisions of the B.C. Liquor Control Act, be eliminated.

## FOUND NO BRUTALITY

The report said no evidence was found to support allegations of brutality made against the RCMP in connection with the riot.

More than 1,000 persons were involved in the fracas, which started when mounties arrested several persons on drunkenness charges during B.C. Centennial festivities. Mayor Peter Lester twice read the Riot Act and 39 persons were arrested.

The committee said the city's large Indian population was augmented at the time by visiting Indians and those in the city for the fishing season.

It said many Indians felt they were subjected to "various forms of discrimination," and de-

scribed the B.C. Liquor Control Act as "the most obvious form of discrimination." The act permits Indians to drink in beer parlors but forbids them to drink at home.

Aggravating factors, the committee said, included lack of entertainment facilities and shortage of transient-type accommodation. The fact that beer parlors and restaurants were concentrated in a small section of town also had contributed.

## WHITES BLAMED

The report placed a large portion of the blame on the small section of the city's white population which capitalized on the "native feeling of discrimination" and incited lawlessness. It also noted a "general feeling of resentment" against the RCMP.

The committee said the RCMP should be given more backing and stiff penalties should be imposed on those convicted of attacking officers. It opposed formation of a local force.

The report urged that reservation rights be preserved, even though Indians receive equal rights in every other respect, because "the natives still consider the white man as an interloper and look upon reservation rights as a small part of what is rightfully theirs."

The committee, set up by city council, consisted of chairman John Guthrie and members W.H. Murray and K. H. Harding.

# Klaus Fuchs Still Commie After Nine Years In Prison

WANDLITZ, East Germany (Reuters)—Atom spy Klaus Fuchs said today that nine years in a British jail had not changed his views about communism and he now wishes to become a citizen of East Germany and help "build a new society here."

Fuchs, released Tuesday from Wakefield prison and immediately flown to his Communist country, met me on the doorstep of his father's home here—on Karl Marx Strasse—for a before-breakfast interview.

"I am still a Marxist," he said. But he refused to answer questions about his espionage activities or the reasons behind them.

The 48-year-old scientist, pale and unshaven, still wore the rumpled brown suit and thick-lensed steel-rimmed spectacles issued to him in prison.

Fuchs was arrested and tried and convicted in 1950 of betraying nuclear secrets to the Russians. He then was engaged in a nuclear research in Britain and earlier had worked on similar research in the United States on Britain's behalf.

# B.C. Boy Scouts Study Decentralization Plans

PENTICTON (CP)—Decentralization of the B.C. Boy Scout organization was the major topic of an executive committee meeting of the group here.

"The idea is to provide better scouting," said Brig. William Hoof of Vancouver, provincial commissioner of the Boy Scout Association. He was one of 13

executives at the day-long session.

Administration of the activities of B.C.'s 32,000 scouts is now concentrated in Vancouver, explained M. J. Foley, president of the provincial council for B.C. and the Yukon.

"Both headquarters and the outlying areas think it best to decentralize," said Mr. Foley, who is chairman of the board of Powell River Paper Company.

The meeting worked toward setting up of the first of seven to 10 self-administering areas in B.C. The Kootenays would be the first of these if plans work out.

PENTICTON (CP)—The provincial highways department has turned down a proposal that an alternate Highway 97 route past Penticton be built on the east side of Okanagan River. The road is scheduled to be pushed along the west side of the river.

In a letter to city council, deputy highways minister H. T. Miard said the route west of the river would "serve the interests of Penticton quite well."

City council and the Board of Trade have endorsed the opposition of Penticton Indian band to location of the alternate route through the Indian reserve land west of the river.

Mr. Miard said the east-side route had many disadvantages.

# C.U. AND C. COVERS NEW-BORN BABES

Individual subscribers to credit unionism's medical insurance plan in British Columbia—the C.U. and C. Health Services Society—have no more worries about infant babies.

Monday's session of the society, meeting in annual convocation here, approved extension of benefits to cover new-born babies of members covered individually.

Indications are the society will continue to expand rapidly, President Howard C. Hunter told the assembly.

# CBC Ponders Cancellation Of Programs

BULLETIN OTTAWA (CP)—The Commons broadcasting committee decided today to investigate the recent wave of resignations in the CBC over complaints that the publicly-owned corporation is yielding to political pressures.

TORONTO (CP)—The CBC said today it has not decided whether to cancel any radio and television programs affected by the resignations of 32 production officials.

The mass walkout from the department of talks, in protest over alleged political interference, now includes 28 at Toronto, three in Montreal and one Ottawa producer.

A CBC spokesman said the personnel involved in the action handed organizing for 14 hours of radio programming each week and 7½ hours of television, all involving commentary or opinion programs.

Tuesday the CBC cancelled Tabloid, a 30-minute weekly TV interview show from Toronto which also is seen at Montreal and Ottawa, and Viewpoint, a brief national TV opinion series which follows the 11 p.m. EDT (8 p.m. PDT) news.

There was no decision on whether these programs would be cancelled again today. Most of the programs which could be affected by the situation are carried on the national network.

# Sommers' Appeal Decision Thurs.

OTTAWA (CP)—The Supreme Court of Canada is scheduled to hand down its decision Thursday on an appeal by Robert Sommers and H. Wilson Gray, both serving five-year prison sentences after being found guilty of bribery and conspiracy.

Sommers, former British Columbia minister of lands and forests, was convicted of accepted bribes from Gray in 1953-54. Gray was convicted of paying the bribes in return for special treatment in obtaining forest management licences.

# Italian Strike Fever Spreads

ROME (Reuters)—Italy's wave of strikes, which has already paralyzed passenger shipping and is beginning to dislocate banking business, spread Tuesday with a number of "warning strikes."

The total of workers on strike or threatening to strike in the next few days was estimated at nearly 2,000,000.

About 20,000 marble and other quarrymen began an all-out strike Tuesday. Five thousand workers in state business walked out for the day and announced that they would begin a general strike next week if their demands are not met.

# Crash Aftermath

Aftermath of a motor vehicle collision at Pandosy and Bernard came in city court when Robert McCutcheon pleaded guilty to a charge of failing to yield the right-of-way to traffic approaching from the opposite direction and was fined \$20 and costs.

# Central Credit Union Handles \$113-Million

## Community Projects Get Wide Assistance

By NORMAN GOTRO

Daily Courier Staff Writer

British Columbia credit unionists channelled \$113-million in deposits through their central bank in 1958.

This staggering amount represents the combined business of 325 chartered groups and 186,000 persons.

In addition, assets of \$8,000,000 and loans to member groups, including co-operatives, in excess of \$10,000,000 were reported.

These facts were revealed by B.C. Central Credit Union president William Dew, of Vancouver, to an overflow crowd of delegates to the Central's annual meeting at Kelowna Aquatic today.

The medical health arm of B.C. credit unionism—the C.U. and C. Health Services Society—held its general conference Monday and the burgeoning business of the B.C. Credit Union League will be studied for the remainder of the week commencing Thursday.

Mr. Dew reported community projects loomed large as targets for credit union aid throughout B.C. last year.

B.C. Credit Unionists helped finance:

— Opening of a branch B.C. Central office in Victoria.

— A \$250,000 addition to the Vancouver Credit Union building.

— The Courtenay Exhibition Association building.

— Fire engines for several communities.

— Purchase of school bonds in another group of communities.

— Waterworks debentures in several localities.

— Numerous credit union office buildings.

— Public libraries.

**DISTINGUISHED SERVICE**

Mr. Dew related that perhaps the most outstanding feature of

See CONVENTION Page 2

## New Group Retailers Organized

An independent organization of retail merchants is expected to be the outcome of a special closed meeting last night.

In a brief news release, it was stated a "large group of Kelowna merchants voted overwhelmingly in favor of forming an independent retail organization."

The release added: "A steering committee was appointed to arrange for a future organizational meeting."

Chairman Howard M. Williams, asked for the reasons for the move, said he was not permitted to give out anything more at this time.

Retailers have up to now been represented officially by the Retail Merchants Bureau of the Kelowna Board of Trade. More than half of the retailers in town hold membership in the bureau.

A. R. Pollard, president of the trade board, replied: "We don't know yet," when asked for the underlying reasons for the latest move.

He added that he expected to meet with some of the retailers concerned this afternoon. "We may know more about it then," Mr. Pollard opined the decision by this group of retailers had something to do with store hours but doubted if it meant Kelowna merchants—this group, at least—would follow what appears to be a trend in B.C. towards wide-open hours.

PROUD DELEGATE to the annual convention of credit unionists currently under way in Kelowna Aquatic is W. T. Bleasdale, of Summerland, who, with Stan Thompson, president of Kelowna and District Credit Union, are pictured above surveying prize-winning posters of Summerland and Kimberley and other provincial school children, boosters of the school savings program. Kimberley won three firsts, three seconds; Summerland won three firsts, and a second.

(Courier photo by Inglis).

## MILLION-DOLLAR BUSINESSES

# Summerland, Kimberley Kids Push Credit Unions

The kids of Kimberley are helping make credit unionism in the Kootenay mining centre a million-dollar business.

Kimberley and District Credit Union has 1,100 of them organized into a fast-moving school plan with savings in excess of \$50,000.

Treasurer Vice and supervisory committee chairman Scott Freer said today they expect to hit the million-dollar mark in total annual credit union business by October 14, this year.

Rice proudly indicated the three first and three seconds in school posters displayed at their Aquatic this week during B.C. credit union convention sessions.

He said the kids are real "pushers," and Kimberley's remaining 1,900 adult members are "no slouches" either, he added.

Kimberley's membership has jumped 100 per cent since 1957 and the group won the school savings trophy in 1958.

Kimberley winners of the school posters displayed at the Firsts: Leigh Warren, Gordon Danskin, and Jaquie Day.

Seconds: David Thompson, Marie Shaw and Joe Rokosh.

Also well up on the big prize poster list were five children from Summerland, members of the Summerland Credit Union.

Treasurer-Delegate W. T. Bleasdale said Summerland's group also is growing swiftly and now are in the \$100,000 annual class.

The South Okanagan city's school winners are:

Firsts: Catherine Davies, Ann Davies and Judy Bonhoux.

Second: Heather McArthur.

Bleasdale was confident the Summerland Credit Union will increase its school membership from 602 to many more. Adult members number 1,327. The union's total assets now exceed \$1,133,262.

Vernon Credit Union has 1,153 adult members and 14 junior members. Its annual business is nudging well over a half-million dollars.

**ITEMS OF INTEREST FOR CREDIT UNIONISTS**

WASHINGTON—Credit Unions are booming in the U.S. Navy. Top officers are encouraging establishments and instructing personnel to contact credit union leagues.

MADISON, Wisconsin—Budget counselling is fast becoming a universal credit union service. Credit Union National Association's education department is perfecting a long-range plan to promote service for families.

MT. MORRIS, Illinois—Nearly 1,800 credit unions protect assets through CUNA's bonding program.

## World Credit Union Movement Now Hundred Years Of Age

Background of credit unionism dates to Germany's Raiffeisen, B.C. Credit Union League officials said today.

He saw the need 100 years ago for thrift and credit for common people, A. R. Glen told The Courier.

Raiffeisen's work brought thrift incentives and credit possibilities into the reach of many more people than had ever had them before.

Quebec's Desjardins, in Canada, some 60 years ago, refined the Raiffeisen plan on this continent and the Calases Populaires of French-Canada (Popular Banks) were the result.

American and other Canadian pioneers hearing of Desjardins' "self-help in finance" techniques about 50 years ago started establishing credit unions. By 1909-1910 the fellowship had taken firm root.

## Hunter Returned To Presidency Of Health Plan

Howard C. Hunter, of Vancouver, for seven years president of the C.U. and C. Health Services Society, medical insurance arm of the B.C. Credit Union League, has been re-elected to the society's top office.

The society's annual meeting first re-elected him a director and the board returned him to the presidency.

R. L. Simpson, of the Co-operative Wholesale Society, Vancouver, was named vice-president, and another Vancouver man, J. R. Lyndle, was re-elected trustee.

Elected for two years were Sam Engberg and Rex Thompson of New Westminster, and William Hartley of Mission City.

Named director for a one-year term was R. Tyldesley, Vancouver Police Credit Union.

# Twin Water Wall Threatens China

TOKYO (AP)—Twin walls of water converged today on the south China metropolis of Canton. The floods in Kwangtung Province already had caused the deaths of at least 187 persons and made 200,000 homeless.

Flood crests of the North and West Rivers were expected to strike Canton—a city of 1,500,000 people—with devastating force some time today, Peiping reports said.

The danger was heightened by new torrential rains which lashed the North River Tuesday. A desperate army of 2,000,000 men worked frantically with picks, shovels and sandbags to save Canton.

"Stations and docks in Canton are packed with trains, trucks and ships carrying flood prevention and other material to the areas menaced by the floods," Peiping Radio said.

**HUNTERS, IT'S LATER than you think.** Three good-sized does, tired of waiting for summer, decided to come to town and tempt the local nimrod, John Stewart, driver for a local bakery, was going to work at 5:45 a.m. when he saw the trio minding down Ellis Street and turn on Oxford Avenue, going east, completely unconcerned. He was tempted, but decided to go to work instead.

DAVE MILLIS did himself justly proud last night when he served a smorgasbord at the Aquatic to 500-odd delegates attending the B.C. Credit Union convention. Hosts were the southern chapter of the B.C. Credit Union League and the League.

J. E. COWAN has come up with a suggestion for some local service club's consideration. "If Penticton thinks a palm tree will grow there, then Kelowna should get a banana tree. After all," he said, "Kelowna is recognized as the centre of B.C.'s banana belt."

HANK MARTIN HANSEN, 18, has been remanded in custody by County Court Judge Gordon Lindsay of Vernon after he pleaded guilty here to a charge of uttering a forged cheque in the sum of \$207 and passed at Hall Bros. store at Okanagan Mission. Judge Lindsay deferred sentence until Thursday to consult with the central Okanagan probation officer, Dennis Guest of Vernon.

## BRITISH COLUMBIA ROUNDUP

(Continued From Page 1)

said three dealers so far have bid for the painting but he has decided it's not for sale.

### RIVER RISING

TRAIL (CP) — The Columbia River was less than three feet below flood level Tuesday. The river rose to 37.81 feet from 37.07 Monday. A flood would cover some of the lower sections of Trail.

### INJURED BY TRAIN

GRAND FORKS (CP) — Harry Colman, a department of highways grader operator, was in critical condition in hospital Tuesday suffering from injuries received when a Great Northern freight train crushed his grader Monday. It took police an hour to free him from the wreckage.

### PIONEER DEAD

TERRACE (CP) — Anton Martinus, 76, a pioneer of the Prince Rupert halibut fishing industry, died Monday. He moved to Prince Rupert from Vancouver in 1913 and was an active fisherman until his retirement in 1952. He came to Canada from Norway in 1908.

### BOY, 14, DROWNED

PRINCE RUPERT (CP) — Roundly William Leeson, 14, son of Mr. and Mrs. David William Leeson, was drowned at Sunny-side Saturday when his bicycle plunged off the end of a cannery dock.

### ONLY CANDIDATE

PRINCE GEORGE (CP) — With the deadline for nominations set for noon Friday, naberdasher E. Enemark was still the only candidate Tuesday night in a by-election to fill a municipal council vacancy created by the resignation of Alderman George Stewart.

## Government To Make Survey Of Alberta, Saskatchewan

OTTAWA (CP) — A 3,000-mile geographical reconnaissance of Southern Alberta and Saskatchewan will be made this year by the department of mines and technical surveys.

The reconnaissance, which will be used to provide an outline of the physical geography of the Prairies, is part of the 1959 field program of the department's geographical branch. The program will involve 11 teams of geographers, including seven assigned to projects in Northern Canada.

In addition, the department will carry out detailed studies in the areas of the South Saskatchewan River dam project. This study will include preparation of maps showing land use in irrigable areas and physiographic studies.

Much of the 1959 field program represents a continuation of work from previous years. One team has been assigned to complete a land-use mapping project in the Fraser River delta.

Work in northern areas will include investigations into Eskimo resources and movements in the PENTICTON — Water levels in the South Okanagan are "nothing to worry about right now," said flood control officer Frank Clark. Runoff is proceeding normally.

OLIVER — Two Oliver Boy Scouts, Wayne Marsland and Richard Simmons, will be among the 50 B.C. Scouts who have been invited to meet Queen Elizabeth and Prince Philip at Government House, Victoria, July 16.

## TODAY'S STOCK QUOTATIONS

TORONTO (CP) — Western oils touched a four-year index low as the stock market turned mixed today in light morning trading. Dipping below three-quarters on index, western oils declined to 116.00, equal to their position of January, 1957.

Base metals were at a 1959 low as they dropped more than one-third point to 189.18. Golds were off almost one-quarter. Industrials were the lone winners, up one-quarter.

### VOLUME DOWN

The 11 a.m. volume was 697,000 shares, compared with Tuesday's 590,000 at the same hour. Active speculators were generally easier. Can-Ern slipped 10 cents at \$1.49 while New Mylmanque was off five cents at \$1.65.

Among industrial changes were loss on one point. Gaining 1/2 were Aluminum, Canadian Celanese, Moore Corp. and Walker-Gooderham. Steel Company of Canada gave up 1/2 at 78 1/2.

Senior base metals were mixed and juniors easier. Consolidated Mining was off 1/4 at 19 1/2 while Noranda added 1/2 at 51 1/2.

Western oils retreated as Pacific Petroleum was off 1/4 at 12 1/2. Golds were quiet and price changes were in pennies.

Quotations supplied by Okanagan Investments Ltd., 280 Bernard Ave.

## Verndale Development Amends Service Bids

VERNON (Staff) — Verndale Development Limited has amended requests that the city supply most property services under the local improvement act.

Instead, Verndale officials have indicated they will shoulder

50 percent of the initial cost of storm drains, sewer connections

and 30-foot roads to the gravel stage. The remainder of the cost

of these services will be proportioned to property divisions. If

lots are unsold within 12 months, Verndale Limited will be charged

with the unpaid balance. The subdivision is located near

the old Kamloops road. The amendment would leave

under the local improvement plan provision of lanes, water

lines, curbs, sidewalks and street lighting.

Under the plan, property owners are taxed over a period of

years. Verndale officials state the company is incapable of proceeding without this assistance.

A bylaw is forthcoming to cover proposed developments under the local improvement plan.

## VERNON CITY'S FLOAT ADRIFT

VERNON (Staff) — The City's float may drift right out the picture.

City Clerk Ian Garven described it as a "poor orphan" at council meeting Monday.

Verndale Board of Trade claims it won't be able to afford the necessary \$375 to mount the float on a proper vehicle. And action is required within two weeks or the float won't make a splash in the Lumbly Days parade.

The matter has been referred to the City's finance committee.

The matter has been referred to the City's finance committee.

The matter has been referred to the City's finance committee.

The matter has been referred to the City's finance committee.

## Television Network Assured By Oct. 1

There's good news for the thousands in this area who look forward to the world series of baseball.

The CBC's microwave network link with Kelowna will be completed in time for the world series.

### Lawyers From All Over B.C. Travel To Island For Parley

Brian Weddell of Kelowna will be among the 150 to 200 lawyers from all parts of the province who will converge on Nanaimo this week for the annual meetings of the Law Society of B.C. and of the B.C. Division of the

Canadian Bar Association. Formal opening of two conventions, attended by largely the same delegates, will be held jointly tomorrow.

### Airforce Re-Union Set For Kamloops

Sixth annual banquet and reunion of the Interior Ex-Airforce Association will be held at the Plaza Hotel, Kamloops, Friday at 6 p.m. It is ex-airforce personnel are invited to attend.

Canadian Bar Association. Formal opening of two conventions, attended by largely the same delegates, will be held jointly tomorrow. Convention speakers will include Attorney-General Bonner, Chief Justice A. C. DesBrisay, and Maj.-Gen. C. A. P. Munson, president of the Union of B.C. Municipalities.

### POLICE COURT

Fine of \$10, plus costs, was levied in district police court on Thomas F. Evans when he pleaded guilty to operating a motor vehicle contrary to restrictions on his driver's licence (without wearing his glasses).

Charged in district court with driving without due care and attention as a result of a near accident at Finn's corner, Edgar Kruger, Vancouver, was convicted and fined \$25 and costs.

Failure to stop at a stop sign cost Alfred Fork a fine of \$20, plus costs, in district court.

Pleading guilty to a charge of crossing over a double line on a highway curve, driver Edward Zenowski was fined \$25 and costs in district court.

Pleading innocent in city police court to a charge of allowing another person to use his driver's licence, Rayden Andrusko was acquitted.

Fine of \$20, plus costs, was assessed against Gertrude Irene Kroeker after she pleaded guilty in city court to a charge of failing to stop at a stop sign.

A fine of \$150, plus costs, was imposed in district court when Arthur Wayne Esser pleaded guilty to being in control of a motor vehicle while his ability was impaired by alcohol.

### District Students In Annual Playdays

Permission was granted by city council Monday night for the use of City Park Oval and picnic grounds by two schools for annual play days. East Kelowna used the grounds Tuesday and the grounds today from 10 until 2.

### Trade Board Meet Sicamous July 12

At least four or five local delegates will go to Sicamous July 22 for the annual meeting of the Okanagan-Mainline District Associated Boards of Trade. W. T. Buss, vice-president of the Kelowna board, is slated as incoming president of the mainline group, succeeding Gordon Lee of Kamloops.

### ESCORT B.C. LIONS

Representatives of the local trade board will meet personnel of the B.C. Lions in Summerland July 5. About 60 players, coaches and team officials will be here for two weeks. Lions open their spring training camp here July 6.

### YELLOWHEAD CARAVAN

KAMLOOPS — Kamloops will host the "Yellowhead Caravan" of a minimum of 100 cars Aug. 23 and 24.

CARLOS MATOS

### KNOWS BUT WON'T TALK

## Neurtal In Politics, Says Union Official

By ALBERT DENEGRIE  
Daily Courier Staff Writer

The Puerto Rican, on top of the fluctuating and explosive political situation in the Caribbean and Central America, would not commit himself in any way. "We are politically neutral," smiled Carlos M. Matos, assistant director of the world extension department of the Credit Union National Association.

"We have friends all over the world and as officials we do not become involved in politics," he said in an interview where this reporter tried to get him to give his views on the reasons behind the current unrest in the Latin American countries.

Medium to heavy build, dark-skinned, affable and with streaks of gray in his otherwise black, curly hair, Mr. Matos explained he had the job of encouraging the worldwide development of credit unions.

### WORLD TRAVELLER

"We go to different countries to help organize credit unions and to help train the people there to administer their unions and organize others," he said. "Yes, I have travelled pretty well all over the free world."

He explained that CUNA, while called national, actually is international in scope and growing tremendously every year.

Even in Cuba, there has been an amazing growth in the credit union movement since the Castro regime took over, he admitted.

Cuba is one of the main islands that form the Greater Antilles

group, of which Puerto Rico is the easternmost. Others are Jamaica (British territory) and Hispaniola, which includes the Dominican republic and the republic of Haiti. Cuba is a republic too, while Puerto Rico is a territory of the United States.

### CROWDED ISLAND

Mr. Matos described Puerto Rico as "one of the most crowded islands in the world," its size of approximately 100 miles by 35 miles containing a population of 2,300,000.

Smaller in size than Vancouver Island by far, and with 10 times the population!

The island is undergoing a vast industrial "revolution," due to U.S. companies investing millions of dollars in industries such as chemical factories and oil refineries.

Near the heart of the hurricane "spawning grounds," still Puerto Rico usually escapes the fury and destruction of the violent storms. Temperature at Puerto Rico runs usually from a minimum of 70 in the winter time to a high of 90 in summer.

While holding office with CUNA, Mr. Matos' residence is at Madison, Wis.

### Board Renews Pressure For Improved Road

Kelowna Board of Trade will again urge the B.C. Highways Department to bring the Carnal Beavercreek road up to first class standards.

Executive last night decided to write Highways Minister Gagliardi, pointing out the importance of the road to Kelowna and Carnal residents. It is estimated the residents in that area spend from half to three quarters of a million dollars annually in the Kelowna City.

It is hoped that eventually the road will be blacktopped. Part of the road has been reconstructed in recent years, but there are still many bad sections.

## C.U. And C. Health Society Pays \$2-Millions In Benefits

The B.C. credit union movement's medical insurance arm—C.U. and C. Health Services Society—paid just under \$2,000,000 in medical care accounts during the past fiscal year, delegates to the annual convention, meeting at the Aquatic, were told by president Howard C. Hunter, Monday.

Reporting for the board of directors of the society, Mr. Hunter said membership in the plan now exceeds 26,650 with coverage for an estimated 146,000 persons. Of these, approximately 11,000 are members under the society's individual plan.

Dues income increased by 28.7 per cent, but this proved to be a drop from 1957, when income was 36.5 per cent and 1956 when it was 41 per cent.

### ECONOMIC SLOWUP

Hunter said this situation reflected a slowing up in the general economic situation which began late in 1957. But with leveling off of past few months a more stable membership figure has become evident and it is hoped this trend will continue.

The president said the financial report showed the society operated at a loss because of higher utilization of the service and increases in doctor's fees.

The rate hike averaged a 10 per cent overall advance and doctors have indicated they will step up fees by another 5 per cent, July 1, this year.

Disruptions in employment also has had an adverse effect on costs, which were thrown out of line with income, Hunter related.

The report stated that to meet growing volume of claims, the board moved last December to increase medical insurance dues on all individual contracts and on the next following renewal date of all group contracts.

### City Council Grants New Trade Licences

Applications for trade licences from the following were approved by city council Monday night:

John W. Ambler, for 24 rooms to rent, having taken over the business formerly operated by E. W. Moyer and trading as Hycrest Holdings (Kumfy Kourt). New business name is Tollday Motes and Trailer Park.

Doris J. Morgan and Fred H. Day, delicatessen, at 235 Bernard Ave.

## Canada Proud To Have Queen As Head Of State And Guest

A few days ago, a CBC commentator, appearing on a U.S. TV program, had the poor taste to say that "like most Canadians" she was indifferent to the royal visit, and brought a simmering kettle to the boil.

The kettle had been simmering because some U.S. magazines had tried to find some antagonism or at least lack of interest, even resentment, among Canadians to the Royal family, and articles along this line had been published. Unfortunately there is an element in the United States which is unable to, or refuses to, understand that we in Canada both love and respect our Queen and that we do not need any advice on this subject from our southern cousins whom we suspect are somewhat envious of us for having a Queen.

As for the CBC commentator, we trust she was "misquoted" because certainly she is not capable of being a reliable CBC commentator if she thinks for one minute that "most Canadians are indifferent" to the Queen's visit.

Actually, we think, most Canadians are tremendously thrilled with the visit and are also very proud of the Queen. She comes here at a time of disappointment with the international conference at Geneva, where wise men of the East and West had great argument to no good purpose.

Elizabeth II comes from the Old World to the New; from a land with a history reaching back to the declining days of the Roman Empire, from which Britain inherited the art of government and the urge for colonization, which culminated in a greater empire than either Alexander or Caesar dreamt of. Canadians are full citizens of the British Commonwealth of Nations today, and as such they greet and acknowledge young Elizabeth II as their Queen, with the same loyalty and personal esteem they bestowed upon Queen Victoria during her long and glorious reign.

The Canadian constitution under the British Crown is not something that has been imposed upon the people of Canada by a foreign power, as in the case of, say, Poland and other Russian satellites. The French people of Quebec might claim that they were subjected to British rule by conquest; but their position after that conquest can not be compared with that of Poland today.

in fact, after the fall of Quebec they were in a better position politically and in every other way than they were under the rule of France. They were allowed the same freedom as the rest of Canada at that time, and the conquest under Wolfe actually saved them from being absorbed into the United States, which they did not want then, and do not want today.

Quebec was consulted, along with the other provinces, in drawing up the act of confederation. That act assured to the French people their traditional rights, religious and cultural, including the preservation of the French language. Under confederation, with allegiance to the British Crown, Canada was united and has progressed from a colonial status to her present position as the leading member of the Commonwealth of Nations; from an agricultural and lumbering colony to a great industrial nation with the second highest standard of living in the world.

That is something of which all Canadians should be proud, and which they should do their utmost to preserve. To preserve it Canadians fought in two wars side by side with Australians, New Zealanders and other sons of the Commonwealth. Even the United States, by entering those wars, showed that they felt that the Commonwealth and all it stood for was worth preserving. After all, was not the United States an offspring of the British Empire? Almost the whole of the North American continent was a British colony before the Declaration of Independence, and the fact that the Republic was established with so little forceful interference, and is today a friendly neighbor of Canada is in itself a tribute to British world statesmanship. No part of the Empire was coerced into remaining under the British Crown if it proved itself capable of self-government and wished to withdraw, Indian and Egypt are examples of withdrawal, although the former is still nominally a member of the Commonwealth.

Canada today is as independent as the United States, and in addition we are linked through the Commonwealth in our loyalty to an historic Crown under which, since "the spacious times of the great Elizabeth", civilization has been extended to the ends of the earth.

SHIPS IN A BOTTLE

## Iraqi Air Force Gets First Soviet Plane Off The Ground

By STAN CARTER

ROME (AP) — The Iraqi air force got its first Russian plane off the ground two weeks ago. It was an Ilyushin 28 jet bomber of the Korean-war era. On its first flight with Iraqi markings, it made several passes over Baghdad before returning to the military airfield at the edge of the city.

The Iraqi armed forces are expected to show off more of their shiny new Soviet equipment in a military parade on the anniversary of the Iraqi revolution July 14.

About 200 Russian military advisers are teaching the army how to drive Korean-vintage T-54 medium tanks and Soviet-made trucks and armored personnel carriers, and how to fire Soviet anti-aircraft and anti-tank guns.

### EASY TERMS

The Soviet military attaché in Baghdad said the arms were sold to the Iraqis on easy terms. They supplement British and American equipment with which the Iraqi armed forces were armed previously.

Premier Abdul Karim Kassim says the army could not "slide to certain limited tendencies," meaning it would not go Communist. But could the army stop a Communist takeover?

Some of the officers in Kassim's immediate entourage have been friendly with the Reds. So many pro-Nasser—and also anti-Communist—officers were arrested or cashiered after the Mosul rebellion that foreign experts consider the officer corps has been decimated. Discipline has broken down.

The army is a 55,000-man force. The army is considered capable of defending itself against an attack by any other Arab country but not capable of launching an attack. The Turks, on Iraq's northeast border, could

walk right through the country, has made speeches that parallel the Communist line.

### GOOD LEADER

The chief of the general staff, Brig. Ahmed Salah Al-Abdi, is viewed as a good, non-political career soldier. He probably hasn't any personal following.

Other officers in Kassim's immediate circle worry some observers.

A question mark is Col. Wasfi Tahir, 40, Kassim's aide. An original member of the "free officers" who plotted the revolution, he was the aide of the late premier Nuri Said until about a year before the revolution. Tahir

are not on duty.

## SCENE IN PASSING

BY "WAYFARER"

By "WAYFARER"

There have been times when we have not seen eye to eye with Mr. Avery Brundage, chairman of the Olympic Committee.

It isn't surprising, for over the years Mr. Brundage has aroused the ire of a great many people a great number of times. However for once at least, we applaud Mr. Brundage. His stated reasons for admitting Communist China to the Olympics were good valid ones; he said in effect that no good honest statement completely in line with the spirit of the modern Olympic games as conceived by the founders.

When we issue a driver's licence to a teenage youngster, he then has the same privileges that we older persons have. It follows that he should accept the same responsibilities. He should, but he doesn't. If he is involved in an accident or picked up for traffic violation, he is protected by the law—the law that does not

permit his name to be published. When he gets his driver's licence he is an adult; when he gets into trouble he is a child. It doesn't make much sense does it?

The recent, mild hullabaloo resulting from the fact that the Royal Duke may have turned the sprinklers on a couple of news photographers, only leads us to a further appreciation of our Queen's forthright husband. We suspect that memory of a certain aspect of the arrival of Princess Margaret in Kelowna last year has had something to do with the way we feel. As we look back and remember the uncouth and ill-mannered behavior of the majority of the news photographers on that occasion we have a recurrent feeling of wrath. They deserved not sprinklers but a fire hose!

We hope the Summerland cows with windows in their stomachs are comfortable in their peculiar condition. In other words I hope they are not having window pains.

Then there was the unfortunate fellow who stayed awake nights to succeed. He couldn't stay awake days!

## REPORT FROM THE U.K.

### Canadian Tourists Bolster Treasury

By M. MCINTYRE HOOD  
Special London (Eng.) Correspondent  
For The Daily Courier

LONDON—The long spell of glorious sunshine which Britain has been enjoying for the past few weeks is

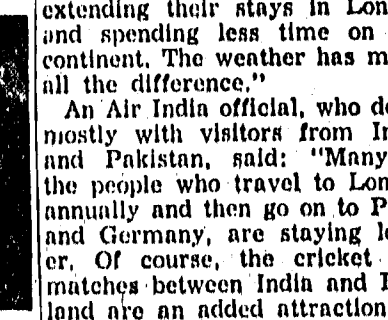

in hope of many thousands of dollars into the British treasury. Tourists from the United States and Canada, who had booked immediate onward travel by rail, water and air to cities on the continent, and to cities of sunshine there, have had their minds changed for them by the continued sunny weather in Britain, and have stayed on here.

Instead of seeking sunshine on the continent, they are finding it in Britain, and are going to the Shakespeare country and to holiday resorts in Scotland.

Evidence of this came from officials of the various airlines operating out of the London airport. One of them speaking of the flood of postponements of continental trips said that the good weather in Britain had surprised thousands of touring visitors.

### USUALLY REBOOK

From British European Airways comes the report: "There have been a very considerable number of Americans cancelling

## OTTAWA REPORT

### CBC Seen As Incompetent

By PATRICK NICHOLSON

MPs sitting on the broadcasting committee have expressed their opinion that the first witness to be questioned by them, E. Bushnell, acting president of the Canadian Broadcasting Corporation, has been unco-operative in his replies and has exhibited truculence which appears to betray his conviction that mere MPs have no right to call him up to explain in such detail how the CBC is operated.

The MPs who criticize him however consider that they were chosen by us, their fellow Canadians, to represent our interests in parliament, and especially to ensure that waste and extravagance in the spending of our tax money should be eliminated, so that our taxes could be reduced. And in this particular committee, those MPs are rightly anxious to find out why we have to supply over \$87,000,000 in taxes this year to provide broadcast entertainment which our U.S. neighbors get for free.

Whether or not Bushnell is a "bad" witness is a question on which such experienced lawyers as Bellechasse's Noel Dorion and on the committee, should know Ottawa's Dick Bell, who are the correct answer.

### CBC DISCREDITED

But one point on which there can be no possible disagreement is the matter of a witness telling the truth or not. If a witness is shown up as not telling the truth, then it is axiomatic that other things he says may be unreliable. And in this respect the CBC stands before parliament self-revealed as inaccurate in its answers.

Further, in this matter the CBC is shown up as being grossly incompetent and careless. So much so that on these grounds there can be no doubt that the large and costly staff assembled at your expense by the empire-builders of the CBC is an unjustified burden on us the taxpayers.

I will refer to a simple but vivid example. In reply to Senator Thorvaldson's question in the Senate, in February the CBC supplied details of journalists in the Ottawa Press Gallery who had been employed to broadcast in certain programs of comment and opinion during 1958. In reply to a similar question in the House of Commons Committee on Broadcasting, in June the CBC supplied answers purporting to give the same information.

One would expect that the CBC would say the same in June as it had said in February, relating to such easily ascertainable facts replying to similar questions. But no. It gives different answers.

### WHAT CAN WE BELIEVE?

For example, the CBC told the Senate that an "Press Conference" Michael Barkway appeared twice during 1958, Charles Lynch appeared three times and Arthur Blakely appeared six times, as well as other panelists. But the CBC later told the House

of Commons committee that, on this same program and during the same period, Barkway appeared four times, Lynch appeared twice and Blakely appeared three times. Subsequently the CBC submitted some amendments to the committee, but its figures still did not coincide with those given to the Senate.

Similar discrepancies also appeared in answers relating to the program "Viewpoint". The Senate was told that Barkway appeared once, Lynch once and so on. But the Commons committee was later told that Barkway appeared six times, Lynch four times, etc.

The CBC maintains a large staff — an unnecessarily large staff, many believe — to handle "information". It also maintains a staff of directors who hire performers for such programs and a staff of accountants who prepare and record cheques to pay them. If the information staff is unable to obtain correct information from producers and accountants in this respect, can we believe any more safely the statements made by the CBC in connection with the millions of dollars it spends — and losses — in creating programs?

The CBC has shown itself to be an unreliable witness. The House of Commons should indeed scrutinize its affairs very closely.

## BYGONE DAYS

10 YEARS AGO

June, 1949

**WESTBANK:** Considerable satisfaction has been expressed locally over the fine job of surfacing the highway through Westbank, as well as the road through to the ferry. At Westbank the full width of the highway has been laid with blacktop.

The traffic committee of the city council will make a thorough investigation of the parking meter situation, and will bring in a full report on the matter at a later date.

20 YEARS AGO

June, 1939

Further tariff protection by values for duty have been applied against importations of vegetables and fruits, effective on June 17. The cherry duty which has been effective for some time in the western area, became effective in eastern Canada on June 15.

30 YEARS AGO

June, 1929

At the monthly meeting of the Women's Institute, the pressing need of an ambulance was stressed by members of the institute, it being pointed out that in two or three severe cases, accident victims had to be conveyed to the hospital on a mattress by a truck, owing to lack of proper transportation facilities.

40 YEARS AGO

June, 1919

Death came suddenly today to Robert Napier Dundas on his 48th birthday. Mr. Dundas came to the district about 25 years ago, ranching at Shorts Point and in the immediate Kelowna district.

50 YEARS AGO

June, 1909

The Belgo - Canadian Fruit Lands Co. have opened an office for their engineering department in the old Courier building, next to the Opera House on Water Street.

## Women Better Pedestrians

Women are better pedestrians than men, reports the British Columbia Automobile Association, which has figures to show that men are involved in seven out of every ten pedestrian traffic deaths.

Other statistics revealed by the BCAA show the following fatal facts:

Of every 100 adult pedestrians killed in traffic, 38 are over 64 years of age. Poor eyesight, hearing and muscular coordination are important factors.

Nine out of every ten adult pedestrians killed in traffic never had been licensed to drive. This indicates the importance of driving experience in learning how to cope with traffic while on foot.

Of the adult pedestrians killed in accidents, 23 out of 100 had been drinking.

Two out of every three victims had violated a traffic law or committed an obviously unsafe act.

Over a third of pedestrian deaths in cities occur when the victim is crossing the street between intersections. In one-fourth of pedestrian deaths, the victim was crossing at an intersection uncontrolled by a traffic signal.

Three out of every five pedestrian traffic fatalities occur during hours of darkness.

The average pedestrian crosses the street at a rate of four feet per second. A car travelling at 30 miles per hour is moving 44 feet per second.

Pondering a little now over these figures and taking heed of their implications may prevent you from becoming another fatal statistic.

## Eisenhower Will Be Busy Man To Keep Pace With Queen

By ROBERT RICE

Canadian Press Staff Writer  
MONTREAL (CP) — President Eisenhower will be kept hopping Friday by the Queen of Canada.

In Canada to help the Queen open the St. Lawrence Seaway, he'll fly, walk, ride in a car and sail in a yacht—all in less than 12 hours.

The hectic, historic part will be in a neat triangle of 67 miles, almost all within sight of Montreal Island where Canada's biggest city stands. He lands by air from Washington at St. Hubert Air Base, travels by car eight miles to the seaway entrance at St. Lambert, sails by ship 31 miles to Beauharnois, Que., and flies by helicopter 28 miles back to St. Hubert.

Including the Washington flights, the president will travel almost 1,000 miles.

**BID DAY**  
For the Queen, it's the biggest day in a 45-day cross-Canada visit that will also take her to Chicago.

The monarch and the president are to inaugurate the seaway by sailing in the Queen's yacht Britannia through the first two locks. But they won't be the first seaway sailors. More than 1,500 ships have already used the waterway since it opened two months ago.

The Queen, who arrives here Wednesday night aboard the royal yacht, plans to meet the president at Canada's major air defence command base eight miles east of Montreal.

The president, accompanied by a dozen top U.S. government leaders, is expected to land at 9:58 a.m. EDT aboard his own plane, the Columbine. While the Queen watches, he will inspect a 100-man honor guard standing almost on the spot where 29 years ago the British dirigible C-100 tied to a mooring mast

after a successful Atlantic crossing.

That was the start of St. Hubert as an air base. Now it has a key role in North America's defence network. Direct contact is maintained 24 hours a day to NORAD headquarters at Colorado Springs, Colo. Some 17,000 people—some of them Americans—work at St. Hubert base.

"We've got radar watching out for the enemy and also keeping an eye on the weather," said an RCAF officer.

"We're prepared for both. We'll do the welcoming inside the hangar if it rains. If there's an enemy attack, we're at the ready."

all the time."

After a 21-gun presidential salute, the Queen and her guests, along with Prime Minister Diefenbaker and his wife, are to drive to the St. Lawrence Seaway's eastern gateway, across the river from Montreal.

The royal procession will drive along a roadway lined with 108 flags of shipping lines to a 350-foot-long, grass-banked plaza, flanked by a mammoth grandstand insured for \$1,000,000 against sudden collapse. They will mount a modernistic dais set in the centre of five giant wooden archways.

After receiving books in silver-cases listing every worker who helped build the seaway since 1945, they are to make speeches and then are to board the Britannia, moored 3,500 feet away at special dock made of three floating barges.

A 21-gun salute by HMCS Gatineau, docked nearby with USS Forrest Royal and HMS Ulster, will send the Britannia on its way up the seaway canal.

At 11:55 a.m. EDT—if all goes well—the Britannia is to pass through symbolic gates in the canal to start the seaway on its formal career.

At the Beauharnois Locks, 31 miles up the 185-mile seaway channel to Lake Ontario, the president is to take leave of the Queen, flying back to St. Hubert in a helicopter, weather permitting.

**BIBLE BRIEF**  
That field was called the field of blood until this day. — Matthew 27:8.

The money paid to Judas for his betrayal was put to a good use—to provide a burial place for poor people. Christ's blood, deeply touched by His death and suffering. He did not die in vain.

## Welland Canal Shipping May Be Halted For Three Days

THOROLD, Ont. (CP) — Shipping on the Welland Canal, plagued with holdups since the St. Lawrence Seaway opened two months ago, may be completely halted for three days after a mile-long section was drained Sunday to allow repairs to a broken timber sill at the base of a lock gate.

Paul Ellis, superintendent of the canal's northern division, said Sunday night repairs to the sill at Lock 4, just east of here, would take about three days.

Another crew of workmen is trying to close special gates in the lock which would permit the upbound lock channel to be refilled and partially restore traffic. The special gates, clogged with cement and rubble, have not been used for possibly 25 years.

### U.S. SHIPS EXPECTED

At least 54 ships were blocked by Sunday night. Within three days three U.S. destroyers, first contingent of a 28-ship flotilla scheduled to traverse the seaway in the next 10 days, are expected to enter the canal.

The holdup already involves almost as many ships as were tied up when the heavy influx of foreign vessels reached the canal after the seaway was opened.

The time repairs will take depends on the success workers have overcoming the heavy seepage of water from locks above Lock 4. Special pumps brought in from Toronto were having difficulty controlling the flow.

Damage was believed caused by a heavy rope tender which may have fallen into the lock from a foreign vessel and broken the 18-inch square timber sill when the gate was closed.

It took eight hours Sunday to drain the section of canal and locks between Locks 3 and 6 and it will take about six hours to refill the section after repairs are completed.

### OFFICIALS ARRIVE

R. J. Burnside, St. Lawrence Seaway authority's director of

canals, and A. A. Luce, the aquatics here was William Black, president of the B.C. Federation of Labor, who lauded work of the movement and urged credit unionists to continue their efforts on behalf of the common man. Above, Mr. Black and Mrs. Black register at convention.

## Police Free Chained Man

OKLAHOMA CITY (AP) — A naked 34-year-old man, locked in a jail-like cell in a big truck and sometimes kept in chains by his parents has been freed by police.

Sheriff Bob Turner said that Arthur Ferdinand Davenport had been kept from civilization by his parents because of a mental condition. Turner said the man was removed from a mental institution 10 years ago.

The parents were identified as Mr. and Mrs. Otto Davenport. He described himself as a real estate broker and said his wife was a registered nurse.

They said their son sometimes had "spells" and that he would beat himself about the head and eyes and tear up things.

"He is getting better treatment here than he ever got," his mother told officers. "He was nearly dead and had a broken nose and was badly beaten when we went down to get him."

## THE WEEK'S NEWS

By JOSEPH MacSWEEN  
Canadian Press Staff Writer

Capricious weather added excitement on the day Queen Elizabeth and Prince Philip arrived to begin their 45-day, 15,000-mile tour of Canada.

Brilliant sunshine broke through fog to greet them at St. John's, Nfld., and put aside reports that the royal plane might be forced to land at an alternate airport.

The Queen and Prince Philip will visit some 135 Canadian cities, towns and hamlets, including such places as Yellowknife and Whitehorse. Next weekend the Queen will join President Eisenhower at Montreal for official ceremonies opening the St. Lawrence Seaway.

### ALBERTA ELECTION

Premier E. C. Manning's Social Credit party went through the opposition like a prairie storm in the Alberta election Friday, winning 61 of 65 seats and defeating all three opposition leaders—Liberal, Progressive Conservative and CCF.

A record vote—giving the government its seventh consecutive five-year mandate—cut opposition strength to four from 24 in the last legislature. Redistribution this year increased the number of legislative seats by four.

### FIRE DISASTER

Wind-swept flames destroyed 35 buildings in the heart of Lanark, Ont., leaving 150 persons homeless and threatening to wipe out the community of 900 located 35 miles from Ottawa.

Damage was estimated at \$2,000,000 but there were no serious injuries.

The undaunted villagers began the cleanup job almost immediately and a relief fund began to grow with donations from across Canada. The Ontario government pledged to match donations dollar for dollar.

Judging by the determined attitude of residents, said Rev. Bob Dowdall, "We can hope now to have our business area rebuilt in time for our village centennial in 1962."

### HORSES KILLED

Fire, caused by a cigarette butt, roared through a stable at Toronto's Old Woodbine race track, causing the deaths of six thoroughbreds with loss estimated at \$75,000.

### COLD DIPLOMACY

The Geneva conference of Big Four foreign ministers agreed to recess until July 13. It was faltering along in precarious deadlock Tuesday when the Western foreign ministers offered Russia compromise proposals on Berlin.

The heart of the proposals, Western informants said, is a pre-emptive strike for the Big Four to guarantee the existing arrangements on Berlin. The heart of the Soviet position has been that the occupation status must end.

Foreign Minister Andrei Gromyko of Russia delayed his reply until Friday—when it was suddenly overtaken by a cold blast from Premier Khrushchev, his boss in Moscow.

Khrushchev said bluntly that if Russia is forced to sign a peace treaty with East Germany—as he has suggested at various times—it would be an "illusion" for the West to believe its rights of communications with West Berlin would remain.

On that note, Gromyko presented some more "new proposals" in Geneva.

### LATIN ACTION

The Argentine government battled what it called a revolutionary plot as fresh turmoil boiled to the surface in several countries of Latin America.

President Arturo Frondizi's police swept through Buenos Aires with orders to arrest generals and admirals, many of them leaders of the provisional military government that steered Argentina back to civilian rule after the overthrow of dictator Juan Peron in 1955.

The military unrest follows strikes and widespread political and economic agitation against Frondizi's austerity program.

### OTHER VIOLENCE

President Luis Somoza de Chamorro, fresh from putting down one small invasion, said another was on the way. Prison riots were staged in Havana, by men seeking amnesty, and in Panama by men jailed in May after an expedition against the government.

And there also was an unconfirmed report of a rebel battle operation in the Dominican Republic.

erating in the Dominican Republic.

At least 12 persons were killed and 600 arrested in the Indian state of Kerala where India's only Communist regime is fighting for its life.

The deaths resulted when the Communist government's police fired on forces of the combined opposition staging a "non-violent" campaign in an attempt to bring down the government.

The Indian government moved armed forces into the state to protect Indian government property and restore a measure of peace, chattered last weekend when the campaign began over a school issue.

An announcement said Prime Minister Nehru will fly to Kerala Monday in an apparent effort to restore order.

### AFRICAN RIOTS

Some 3,000 African native women Friday stormed a beer hall in South Africa's Cato Manor Township, where 142 persons died in race riots 10 years ago.

The raid—and the ensuing fight—touched off an orgy of arson and fatal violence in which infuriated Africans, a few armed with clubs, others with clubs and bottles, swarmed through the streets setting fire to government offices, schools and other buildings.

Police opened up with automatic weapons at Cato Manor and Chesterville Township. The women's initial attack was apparently in retaliation for a police raid on natives making homebrew beer. Another immediate cause of trouble appears to be resentment at official handling of a slum-clearance project.

## Writer Says Canadian Papers Kill Royal Tour Criticisms

NEW YORK (CP) — June Callwood, a Canadian writer says in Look magazine that Canadian newspapers suppress criticism of royal tours.

Canadian newspapers always treat the Royal Family with respectful tenderness," she says, "the former newspaper woman in an article in Look, out today. She adds:

"Prince Philip behaved arrogantly throughout his solo tour in 1954 yet not one of the innumerable reporters wrote a word about it. When the Queen and Philip arrived in Ottawa two years ago, the crowd at the airport was far

## Nehru To Probe Commie Strife

TRIVANDRUM, India (Reuters) — Prime Minister Nehru has headed here to conduct an investigation into political strife and mob violence in Communist governed Kerala state.

Anti-Communist citizens trooped into this state capital from miles around to be on hand for Nehru's arrival, and provide support for his contention that trouble in Kerala is a "popular uprising" against Communist government.

## Crown Plant Strike To End

SARNIA, Ont. (CP) — The strike at crown-owned Polymer Corporation, in its 96th day, appeared on the verge of settlement as the company and union bargaining committee sat past the midnight hour.

Eric G. Taylor of Vancouver, special inquiry commissioner, appointed by federal labor minister Starr, said shortly before midnight Sunday night that only two of the original 56 items in dispute remained to be settled.

## Coast Man Is Artist, Author, Philosopher

VANCOUVER (CP) — Joseph Switlyk is a combination artist, shoemaker, author and philosopher, without any formal training in any of these various endeavors.

A tall, dark man of 34, he operates a shoe repair business near English Bay, one of the oldest residential districts in Vancouver.

Recently he has started hanging his chalk drawings in his shop. He says he would like to sell the business and realize his dream of becoming a "custom artist."

"I like being a shoemaker because it gives me a chance to meet people," he said. "I just want to paint, that's all."

He decided to go into the shoe repair business when he returned from the Second World War. He recalls that he got the urge to be an artist about eight years ago. "I don't know how I got the first one on paper, it just happened."

His works have mostly been on religious themes, with an unorthodox approach. One of his Easter paintings shows Christ as a figure in blue, without finger-nails.

"The hands with the holes in them that healed, the head lifeless on the cross and the lack of one arm of the cross is to show that man has made the cross a controversy," he explained.

## NEW FABRICS SHOWN IN LONDON

Celebrating the 21st anniversary of the discovery of nylon, the four British Nylon Trade Fairs were opened in London recently at the Royal Albert Hall.

New developments in Britain—the largest producer of nylon yarns in Europe—include nylon knitwear, tweeds, and blankets. In this picture nylon fabric is seen at its source. In the "throwing" area of a large British nylon yarn factory, this charming day dress is made of a new nylon fabric. It is in Ban-Lon Shantung, in pale blue printed with white dots, lightweight, washable, yet opaque enough for all-day wear.

All that is new in nylon is the theme of this year's fair, which has a greater variety of nylon goods on display than ever before. One of the most fashion-conscious of the synthetic fibres, Nylon is forging ahead in fashion's newest mood. Leading models are showing collections of easy-care day dresses and separates, lightweight coats and suits, party dresses and ballgowns, lingerie and swimwear. More than 90 leading textile manufacturers from all over Britain are showing their latest ideas and achievements in fabrics, clothing and household textiles.

## Choose Bridal Gown Material With Practical View To Future

By ELEANOR ROSS

Even knowing the bride well, you find it difficult to predict just how she will dress the role

### OKANAGAN MISSION

Mrs. G. F. Hilliard and Mrs. R. Glen spent the weekend at Midway, the guests of Mr. and Mrs. Anthony Hilliard.

Mrs. G. R. W. Ford, with Donald and Susan, leave this week for a two month stay in England where they will stay with relatives and friends. They sail on the Empress of England.

Mr. and Mrs. T. C. McLaughlin have moved into their new house just off Saucier Road.

Miss Rosemary Steill, who is with the Department of External Affairs in Ottawa, arrived today to spend three weeks with Mr. and Mrs. Douglas Wilmet, Hobson Road.

Mr. and Mrs. T. W. L. Butters, Nan, Lowell and Brian of West Vancouver are spending a two week holiday with Mr. and Mrs. J. M. MacLennan, Eldorado Road.

The Junior Club Ride of the Kelowna and District Riding Club, met at the Okanagan Mission Community Hall at the weekend. Mrs. M. Crowthers and Miss Nancy Johns were in charge of the 18 juniors on the ride. They went up through the Browne-Clynton property, up as far as August Creek and August Canyon, across the bluffs to the Chute Lake Road. The next Junior Ride will be in September.

Andrew Crowthers has left for Oliver, where he will be employed in the sawmill for the summer.

The recent softball game at the school was a good one in spite of the score—the Saints beat the locals by 25-10. It is planned at the moment that there will be some stalwart females on the opposing team next Sunday—but as the Greeks put it, "that is in the lap of the Gods."

His many friends will be glad to hear that Hector Johns came home from hospital on Monday.

Guests for the weekend at the home of Mr. and Mrs. W. Harry Raikes, Chute Lake Road, were Mr. and Mrs. G. B. Raikes of New Westminster.

Registered at the Eldorado Arms Hotel have been Mr. and Mrs. P. L. Fahrney, San Francisco; Mr. and Mrs. Albert Mitchell, Mrs. H. A. Martin, Hugo and Carol Martin, Mr. and Mrs. Gordon Farrell and son, Mr. and Mrs. Forrest Rogers, Mr. and Mrs. T. W. Evans, Mr. and Mrs. R. W. Andrews, Miss R. M. Dixon, Dr. Margaret Hardie and daughter, all of Vancouver; Mr. and Mrs. G. Murphy, Denver, Colorado; F. D. Rodway, Kamloops.

Mr. and Mrs. Arthur Dawe, Collett Road, lent their home for a farewell party honoring Mr.

### SALLY'S SALLIES

"I just want to see what it does to my weight."

## HITHER AND YON

ATTENDING . . . a two-day Ann Bazett, daughter of Mr. and Mrs. Royce Bazett, and Miss British Columbia in Nanaimo, Margaret Taylor, daughter of Mr. and Mrs. Brian Weddell, Mr. and Mrs. A. B. Taylor. The who leave today, planning to return to the holiday resort.

CLOSING DAY . . . for Ladies' Spring Golf is Thursday. Tea will be served at 3:30 p.m. at the Golf and Country Club, and presentation of prizes will follow. Associate members and their friends are welcome to attend.

KOOTENAY TRIP . . . Mr. and Mrs. J. F. Wikenheiser have returned from a short holiday at Rossland, where they visited their son-in-law and daughter, Mr. and Mrs. George Pettigrew and family.

SPENDING . . . the summer months at Lake Louise, are Miss Mer-

VISITING VANCOUVER . . . Mr. and Mrs. H. A. Truswell are visiting Vancouver for a few days. While in the coastal city, they will attend the graduation ceremony at St. George's School, which their son Byron attends.

EN ROUTE TO KELOWNA . . . Mr. and Mrs. Fred Peacock and family of Calgary, will arrive early next week. Mrs. Peacock and children will spend the summer months here at their lakeshore home. Mr. Peacock plans to return to the prairie city, but will return to spend three weeks or a month here later in the summer.

## Associate Happiness With Good Habits When Rearing Children

By Garry Cleveland Myers, Ph.D.

When have you heard or seen the word "habit" in what you have read on rearing children? This word and the concept it implies have almost disappeared.

Habit is the tendency to do more often what has been done a number of times before with

### OKANAGAN CENTRE

OKANAGAN CENTRE—Members of the Okanagan Centre Women's Institute met at the home of the vice-president, Mrs. Hugh Bernan. One visitor and 13 members were in attendance. This was the last regular meeting for a period of three months.

Mrs. H. Macfarlane, convener of agriculture and an enthusiastic and successful gardener, especially of the kitchen variety, gave a very interesting talk on growing and the use of herbs in cooking. In line with this subject, it was decided to obtain a further package of ten of the very fine institute cook books for sale.

Plans were made to assist in the lunch for the elementary school picnic, to the extent of purchasing ice cream.

Properly made packing house aprons being hard to obtain, it was decided to purchase material and make a quantity of aprons, with Mrs. B. Cooney as convener.

Mrs. Houston and Mrs. Venables served tea during a pleasant social hour.

Mrs. A. R. Chambers and sons, Vernon and Larry, journeyed to Sask. recently to attend the wedding of Mrs. Chambers' brother.

Motoring to the coast this week were Mr. and Mrs. C. Falow and Herbert. They planned to visit in Vancouver and Seattle before returning.

Convinced that she was really seeing the wilds of Canada was a Mrs. Macdonald, guest of the H. Macfarlanes who, on looking out the window while at lunch, was startled to see a black bear looking for its lunch, only a few yards from the house.

Bears have been seen for several seasons across the ridge to the east, but this is the first appearance related in this community.

IMPORTANT SENSE—LONDON (CP)—A woman who lost her sense of smell in a bicycle accident was awarded £1,800 against a motorcyclist in London's High Court.

OLDEST WOMAN—WALSALL, Eng. (CP)—Mary Worthington celebrated her 108th birthday in this Staffordshire town. She is believed to be the oldest woman in Britain.

and Mrs. John Oliver, who plan to return shortly to England. There were some 14 people present, members of the Okanagan Mission Players, to pay tribute to Mr. Oliver, who had very successfully directed the Okanagan Mission Players in two stage productions. Mr. and Mrs. Oliver leave on June 29, and will be much missed in the district.

The cost of a wedding gown isn't as expensive as it might seem if the bride plans to wear it for some time to come.

Mr. and Mrs. John Oliver, who plan to return shortly to England. Dixon, Dr. Margaret Hardie and daughter, all of Vancouver; Mr. and Mrs. G. Murphy, Denver, Colorado; F. D. Rodway, Kamloops.

Mr. and Mrs. Arthur Dawe, Collett Road, lent their home for a farewell party honoring Mr.

satisfaction. The more often the satisfying act has been repeated, the more likely it is to become a permanent way of doing.

### MAGIC WORD

"Emotions" is the magic word now. While the notions of pleasure and fun, satisfaction and discomfort, are usually implied, the word is used vaguely or unclear, such labels as frustration, conflict, emotional disturbance, love, affection and security.

To different persons, these terms have widely different meanings. Often they are accepted as a form of magic only the select can know about.

Yet there need be no conflict between the meaning of these terms and habit growth. You are trying to train your tot in good toilet habits. You want him to co-operate with the least possible satisfaction.

### REPEATED PRACTICE

Once he begins to perform as you wish him to perform you give him repeated practice. You try to see that there are no exceptions to this desirable repetition. You try to help him find satisfaction from his co-operation. You are happy when he acquires desirable toilet habits.

Remembering all you have heard or read about the emotional climate of the family and this child's relation to you, you try to provide him with lots of understanding, love and feelings of security, all of which help in his learning good toilet habits.

### SUBSTITUTE HABITS

Usually when you try to substitute good habits for bad ones you can't easily make the early performance of the good habit satisfying.

Suppose your eight-year-old has had the habit of dawdling at bedtime. Announcing a regular bedtime hour to him, you may need to set an effective penalty if he is late to bed, such as requiring him to sit unamused, doing nothing, for an hour or so.

His early conformity will hardly be very satisfying to him, but it exercised without exception for several evenings it may grow less dissatisfying.

With sufficient repetition, without exception or doubt, he may reach the point when going to bed at a regular time will become a rather satisfying habit.

"My bulletins," "Self-Reliance" and "Educating Your Child in Responsibility" may be had by sending a self-addressed, U.S. stamped envelope to me in care of this newspaper.

Answering parents' Questions Q. What is it that when my husband speaks just once to our children, five and seven, they obey? I must repeat a dozen times or shrill before they do.

A. These children could give you the reason. Why not ask them?

### BLINKERS ON

By TRACY ADRIAN

Here is an entirely new type of sun glasses, called "blinkers". They were designed by Alice Richardson, a gal who knows all about sunshine. Made of acetate sheeting, the glasses

are attached to a plastic headband with swivels so that they can be worn as picture or pushed back on the forehead to form a visor. Perfect protection against both wind and glare, they are ideal for fishing trips as well as shore fun.

## Westside Picnic Enjoyed At Beach

LAKEVIEW HEIGHTS—Many families from Lakeview Heights joined those of Westbank in a Sunday school picnic held by St. George's Anglican Church at the weekend.

Following an afternoon family church service, awards were presented to the children by Rev. Peter O'Flynn, and the supervisor, Robin Drought.

The weather was beautiful when the whole congregation went to the co-op packing house beach. Here the children swam, ran races and had a tug 'o' war, won by the girls. A baseball game was supervised by Mr. O'Flynn, with plenty of advice from his helpers.

There were queues for ice cream and watermelon, and everyone enjoyed a picnic supper which ended a lovely Okanagan Sunday afternoon.

### WINFIELD

WINFIELD—A combined church service held Sunday afternoon in the Memorial Hall marked the completion of the outside of the building, which was begun as a centennial project. The 1st Winfield Cubs and Scouts met at the school and marched to the hall to attend the service.

Weekend guests at the home of Mr. and Mrs. Neil Arnold were their son Donald, Miss Pat Powers, Walter D'Hondt, and Lorne Loomer, all of Vancouver. Miss Powers was here to compete in the hurdles races at the track meet held in Kelowna.

### HELPFUL TODDLER

SWAN RIVER, Man. (CP)—Jimmy Howdle, 4, is learning the dairy business early. His father, Harry Howdle, said the youngster learned to milk a cow after three weeks of trying, and now milks one daily without help.

## Bobak's Painting Course Ends With Exhibit At Local Library

OKANAGAN MISSION—Culminating the two week art course taught by Mr. and Mrs. Bruno Bobak, a most successful exhibition was held at the Okanagan Regional Library on Saturday evening. Work by pupils of both classes was shown, and a great number of interested visitors were present. Following the exhibition, a reception was held at the home of Mr. and Mrs. Trevor Pickering, Buckland Ave.

The indoor oil course was taught by Mrs. Bobak at Miss Mary Bull's studio. The pupils had done extensive work, paying particular attention to tones, and light and shade. The results were

most interesting, and very varied.

The outdoor class, consisting of eight pupils, painted indoors when the weather was bad, and when it was good they painted from outside Miss Bull's studio, above Mallam's field, from Poplar Point and from Knox Mountain. This class was working in water color, oil, pastel, pen and wash, charcoal and conte pencil.

There was an exhibition of the work of Mr. and Mrs. Bobak done during their stay here, in the basement of Mr. and Mrs. Pickering's home. Very modern, the work was executed principally in line and wash, conte, pastel and pencil. Mrs. Bobak's work in pencil, of some of our typical Ponderosa pines, was outstanding.

The course was sponsored by the Art Exhibit Society and ably organized by Miss Helen Beattie. Thoroughly enjoyed by all the 30 pupils, it is planned that a further course be held at a later date.

### EAST KELOWNA

EAST KELOWNA—At the recent meeting of the 1st East Kelowna Brownie Pack, Patricia Carter and Leslie Rennick, having passed their tests, received golden bars, and nine Brownies were presented with cyclists proficiency badges by Mrs. R. A. Widmeyer.

Lynne Rennick celebrated her 11th birthday, when a number of her school friends were invited to a party.

Highlight of the birthday tea, was the big cake complete with 11 candles. Everyone had a happy time and the afternoon finished with various games.

Norman Goddard accompanied by his daughter, from Port Arthur, and Fred Goddard of the Cariboo, were recent guests at the home of their father, W. Goddard. They attended the funeral of their mother, the late Mrs. W. Goddard.

Mr. and Mrs. R. A. Widmeyer, have left for Toronto, where they plan an extended holiday visiting relatives.

Miss C. Fairbank of Kelowna was a weekend guest at the home of Mrs. W. Hince.

### DANISH LIBRARY

Denmark's national library, founded about 1680, includes among its 1,000,000 books about 4,000 printed before 1501.

SOME SMALL-BOAT EQUIPMENT IS SUPER-CARGO

## Jockeys Of Small Boats Should Take Proper Gear

Not everyone can carry cargo things that should be carried in a small boat, and they should. However, there are many be stressed not only in Canadian

## Shifty Leo Boss Gathering Stars

Coach Wayne Robinson is proving to be a shifty Lion, indeed. The chunky ex-line coach of the Grey Cup champion Bombers, currently handling the head chores for the B.C. Lions, is gathering around him a bunch of star material that should prove to be fairly dazzling to the opposition.

First glance at many of these football players will be accorded Kelowna fans in 10 days time, when coach Robinson and his Lions make their headquarters camp in the Orchard City, for the fifth year in a row.

**LATEST CATCH**  
The latest catch, and one of the shiftest guys in the backfield business, is Willie Fleming, 175 speed merchant who flunked out of Iowa University, and has been tabbed as "potentially the best Iowa back in the last 10 years," by coach Forest Evershevi.

Added to the heavy list of Canadian potential Robinson is line-

ing up, plus quarterbacks Randy Duncan, Ogiego and Dorow, Fleming is a bright ray of hope for the win-starved Vancouver football fans, who have followed the fortunes of their pro football club with much interest and little satisfaction since 1954, always hoping the Lions would roar.

The Lions will arrive in town Friday night, July 3, bunk in, and be ready for light workouts Saturday and hit the ball steadily on Sunday. Coach Robinson, one of the toughest competitors in the game himself in his active playing days, will be looking for his boys to be in shape, and stay in shape, so the scrimmages this year should be brisk and purposeful.

Meanwhile, assistant coach Dave Skrien has been working quietly on the possibility of setting up a valley high school football set-up, a project which they have said they will gladly lend a hand to. And the Orchard City will ring to the shouts of "Ho, boy," and "Let's hear that leather pop!"

## Bucs' Chucking Twosome Accountable For Success

By THE ASSOCIATED PRESS  
National League

	W	L	Pct.	GBL
Milwaukee	39	28	.582	—
San Francisco	38	31	.551	2
Los Angeles	38	33	.535	3
Pittsburgh	37	33	.529	3½
Chicago	34	33	.507	5
St. Louis	30	36	.455	8
Cincinnati	30	37	.448	9
Philadelphia	25	40	.385	13

What's kept Pittsburgh's Pirates so close to the National League lead? The answer is the pitching of Vern Law and Roy Face, a starter-reliant pair who have put away more than half of the Bucs' victories.

Law and Face were the only winners when the Pirates lost seven of their first nine games and jumped off on their hoped-for run to the pennant by plunging to the cellar. Now Law, ace

of the starters with an 8-4 record, and Face, the majors' top winner at 11-0, have won 19 between them and the Bucs hold fourth place with a 37-33 record.

Law, 29, a right-hander who's been around since 1950, put away his third in a row Tuesday night, keeping the Pirates within 3½ games of first place with a six-hit, 5-1 victory over San Francisco.

**BRAVES PULL AHEAD**  
The defeat once again dropped the second-place Giants two games behind the league-leading Milwaukee Braves, who whipped St. Louis 9-5. Third-place Los Angeles stayed a half game ahead of Pittsburgh by beating Philadelphia 4-3. The Chicago Cubs defeated Cincinnati 3-1.

Dick Stuart hit his 14th homer and had four of the Pirates' 15

## Blinky Backed By Fight Men

LOS ANGELES (AP) — Two fight managers denied before a federal grand jury Tuesday that Frank (Blinky) Palermo persuaded them to withdraw their prize fighters from a bout.

Sam Boardman said his son, Larry, was pulled out of a lightweight bout with Art Ramponi because of an injured hand. Ramponi's manager, Fred Amaro, said his fighter was withdrawn because of a severe cold.

The bout was scheduled for June 13 at Hollywood Legion Stadium, where Jackie Leonard is promoter. Leonard said he has been threatened by Palermo, a Philadelphia fight manager, because he refused to act as middleman in an underworld attempt to gain control of welterweight champ Don Jordan.

Leonard was found unconscious in his garage June 3. He insisted he was beaten by thugs but police said he apparently collapsed.

## TUESDAY'S FIGHTS

By THE ASSOCIATED PRESS  
Hartford, Conn.—Billy Lynch, 147½, Hartford, outpointed Charley (Tomstone) Smith, 146½, Los Angeles, 10.

## TUESDAY'S STARS

By THE ASSOCIATED PRESS  
Pitching — Milt Pappas, Baltimore, struck out four, walked but one and gave up just five hits for 5-1 victory over first place Cleveland.

## Top Grapplers Coming To City

Hammerhead sharks are a thing of the past for Kelowna Jaycees.

The service organization received the news today that they are going to have Gene Kinsley and Lou Thesz headline the wrestling card they plan to stage in the Memorial Arena, Monday, July 10.

The two, both aspirants to Pat O'Connor's world heavyweight title, are tops in the business. Thesz is a former holder of the world title.

In addition, wrestling promoter Cliff Parker of Vancouver promised a midget bill, featuring Fuzzy Cupid and Pee Wee James.

Ethyl Johnson, the colored gal who wrestled here against Babs Wingo, will take on Judy Grable this time, and Dave Ruhl will meet Steve Bolas in another prelim bout.

## Sugar Ray May Get Title Bout

ELIZABETH, N.J. (AP) — A middleweight title fight for Sugar Ray Robinson in Jersey City has been given the conditional approval of the state athletic commission, Joseph F. Walker.

Walker, after a meeting Tuesday with Robinson, the latter's manager and prospective promoters, said he would approve the bout under two conditions:

1. That an offer be made to Carmen Basilio, rated No. 1 challenger for the vacated middleweight title. (Robinson still is regarded as champion in New York state but his title has been lifted in all National Boxing Association territory.)

2. That if Basilio refuses, Walker be allowed to approve an accredited contender.

## Browns' Choice Ignores Canucks

CLEVELAND (AP) — Rich Kreitling, University of Illinois end and the No. 1 draft choice of Cleveland Browns, passed up another year of college eligibility and agreed Tuesday to play professional football this fall.

Kreitling, a six-foot-two, 205-pounder who was rated one of the outstanding pass receivers in the United States, said he had been approached by some Canadian professional football teams, but added:

# Swede to Topple, "Box-perts" Agree

NEW YORK (AP) — Heavyweight after a study of the two and lightning' right hand, undolung. weight champion Floyd Patterson fighters in their training camps, "Blood and thunder" is the est-punching heavyweight champion of all time. This observer will knock out Sweden's Ingemar Johansson in the first round of at a crystal ball and a consultant, describes the mighty right and Ingemar, himself, appears to agree.

Ingo has kept the mighty right under wraps in training. There's not much question that he has the power in that fist, as evidenced by his first-round knockout of Eddie Machen, then the No. 1 contender, at Goteborg, Sweden, last Sept. 14, and his fifth-round kavo of Britain's Henry Cooper at Stockholm, May 19, 1957.

Johansson is a standup fighter who operates with an orthodox left jab and follows with a straight right hand. In training, however, Ingo has shown nothing. He floundered like an amateur when he was pressed.

Patterson is completely different in his mode of fighting. The little, pantherish champion fights out of a crouch. He bobs and weaves, holding both gloves in front of his face in a peek-a-boo style. His forearms protect his body.

Floyd moves quickly from side to side. Once in a while he shifts to a lefthanded stance. He is hard to hit squarely.

Floyd still leaps in with his "gazelle" right—a punch thrown while he springs into the air with a catlike motion. But most important of all is his devastating combination, especially to the body.

**FAST FLURRIES**  
The 24-year-old champion lets loose with hooking flurries of 10 to 12 punches at times. Those blurring-fast combinations to the body something Ingo never has had to come with—will be his

**BUSY MONTH**  
Next month will be the busiest time in the ball club's summer season, as they host two tournaments, Dominion Day and Independence Day, and start making up some of the five-game deficit they accumulated while the ball park was out of commission.

The lights, with the exception of some adjusting which will be done before Thursday, have proven to be just what the doctor ordered, and the fans' increased comfort should start bringing out more ball fans, club officials hope.

Labs' president Bill Godwin said the grand opening of the lighted ball park will be postponed until Mayor R. F. Parkinson comes back from recuperation, with his ground-covering

## KELOWNA LITTLE LEAGUERS TO HOST INTERIOR FINAL

Little League baseball will stage an important meeting tonight at 8 o'clock in the Mezzanine Room of the Memorial Arena, to discuss the hosting of the B.C. Interior play-offs for Little League, to be staged here.

A great deal of help will be needed to make this ambitious undertaking a success in the Orchard City's second year in organized LL ball, and officials have extended an invitation to any interested persons to turn out.

That's 8 p.m., Mezzanine Room, Memorial Arena.

## Williams Wallops One Night Stand

By THE ASSOCIATED PRESS  
American League

	W	L	Pct.	GBL
Cleveland	35	28	.556	—
Chicago	35	30	.538	1
Baltimore	35	31	.530	1½
New York	34	31	.523	2
Detroit	34	32	.515	2½
Boston	29	35	.453	6½
Kansas City	28	35	.444	7
Washington	29	37	.439	7½

Okay, so one game doesn't end a slump. But give Ted Williams one game in Detroit's Briggs Stadium and the slumper is The Thumper again.

The 40-year-old Williams, back in Boston Red Sox line-up after being benched for weak hitting for the first time in his 20-year career, rapped a single and home run in three at-bats Tuesday night as Boston drowned Detroit 10-4.

It was only the fourth time this season that Williams, who upped his average 13 points to .202, has managed two hits in one game.

**YANKS BEAT A**  
The loss, their fifth in seven games, plunked the Tigers to fifth. The New York Yankees took fourth, beating Kansas City

## U.S. Congress Told Reds Will Use Germs, Poison Gas

WASHINGTON (AP)—The Soviet Union can be expected to strike with poison gases and germs if war comes, the U. S. Congress has been told.

Mal-Ger Marshall Stubbs, the army's chief chemical officer, said the Russians "are known to be intensively conducting research and development in chemical and biological warfare and... to have a number of chemical agent production plants."

He said what is known of the Russian material and of Soviet training methods indicate they are of excellent quality. Only one conclusion can be drawn, Stubbs went on, from the Russian interest in the field and willingness to pour resources into it.

"They will take the initiative in waging chemical and biological warfare and... they actually plan to do so if it is to their advantage."

Stubbs' testimony was prepared for a closed-door meeting of the House of Representatives space committee.

### HEAR H-BOMB FINDINGS

A Senate-House subcommittee meanwhile heard experts predict what would happen if the U.S. were struck by an H-bomb assault.

Investigations made by the subcommittee are based on a theoretical enemy attack blasting the Northern Hemisphere with the power of nearly 4,000,000 tons of TNT all delivered by nuclear weapons.

Aircraft, submarines and intercontinental missiles, in this hypothetical attack, fired 1,453 megatons of atomic explosives on the U.S. itself. A megaton repre-

## Voter Retains Unique Record

CHATHAM, Ont. (CP)—Henry Charles Lumley holds a record that has few challengers.

When he voted in the Ontario general election June 11, it was the 42nd time he has voted in provincial and federal elections in 79 years.

Born at Priceville, near Owen Sound, 99 years ago, Mr. Lumley is extremely active for a man approaching the century mark. His main hobby is gardening, and he keeps busy growing vegetables and tobacco.

"People keep telling me to sit around and take things easy," he said. "But I like to work and I can't sit around. A lot of old people would live a lot longer if they'd quit worrying and keep busy doing something."

Mr. Lumley, who looks forward to his 100th birthday on Aug. 18, maintains his three-room cottage without help, doing his own cooking. He has been a resident of Chatham since 1915.

## Man With Electrical Heart Will Live Fair Normal Life

NEW YORK (AP)—A 67-year-old man—kept alive by a portable electric device plugged into his heart—leaves hospital to live what a resident surgeon predicts will be a "fairly normal life."

### Old Bible Still In Good Shape

EDMONTON (CP)—A 203-year-old hand-printed Bible here is still in good condition, despite its hazardous history.

It was stored in a concrete coal bin at the port city of Breskens in the Netherlands 15 years ago when that Nazi-occupied city fell to Canadian and British forces.

It is owned by L. A. Csouw, now of Edmonton, and when his home in Breskens was hit by bombings the coal bin was caved in as dikes around the city were smashed and the place flooded.

Mr. Csouw recovered the family heirloom a few days later.

"It took a while to get the Bible cleaned and restored, but now it's as good as new," he says.

The 12-pound Bible was printed in 1756 by Jacob and Hendrik Keur of Holland, and has been in the Csouw family since 1772. The first signature in the book's family record is that of Jacob Sonnevill, who was Mr. Csouw's great-great-grandfather.

## Iron Curtain Delegates Court Canadian Trade

By DON ATTFIELD  
—Canadian Press Staff Writer

OTTAWA (CP)—Representatives of Iron Curtain countries are bustling about Ottawa in unusual numbers and they make no bones of the fact they are courting increased trade with this country.

They seem to be making some headway.

They are interested in selling to Canada as well as buying from her with a view to reducing the big Canadian trade surplus with Communist block countries of recent years. In 1958 Canada exported to Russia products valued at \$18,800,000 while importing only \$1,600,000 from that country.

A member of a Czechoslovakian delegation said here Monday night his country soon may buy up to \$10,000,000 worth of chemicals and pulp and paper machinery from Canada.

## Farmer Vets Get Ottawa Loan Aids

OTTAWA (CP)—Loans available to war veteran farmers to enlarge their farm holdings will be more than doubled under legislation passed by the Commons.

The government bill amending the Veterans Land Act provides for maximum loans of \$20,000 instead of the present \$9,000 for full-time veteran farmers. The repayment period is being extended to 30 years from 25.

The measure was cleared through its final stages in the Commons and sent to the Senate with general approval of all parties.

Veterans Minister Brooks, replying to a question by William Bendickson (L.—Kenora-Rainy River), said the government intends to use Veterans Land Act officials to help administer the general farm loans as well.

Other changes provided in the bill passed Monday night will extend the purposes for which VLA loans may be used, to include purchase of livestock and equipment and the refinancing of existing debts.

The ration of loan to security is to be raised to 75 per cent from 66.66 per cent.

## Williston Denies Westwood Water Permit Appeal

VICTORIA (CP)—Lands and Forests Minister Williston has dismissed an appeal against the granting of a water licence to Recreation Minister Westwood and his brother for property they own near Nanaimo.

The water controller's office confirmed that Mr. Williston had denied the appeal taken by the Nanaimo Civic Properties and Recreation Commission and heard here June 8.

It was indicated that the Westwoods now will be given the licence to draw water from the Millstone River for irrigation of their farm.

## Fox Hunt Urged To Curb Rabies

WINNIPEG (CP)—A leading Manitoba veterinarian suggests revival of the British-style fox hunt here as a means of reducing the danger of rabies outbreaks in the province.

Dr. Frank Shelton, technical director of the department's atomic support agency, told the subcommittee:

"One must consider that even for a very large-scale war, the worldwide hazard to the countries not attacked would not be very important in terms of their survival."

Although warning that the measure is effective only temporarily, he suggests that organized fox hunts be instituted during the summer, particularly in the district south and west of Winnipeg.

Dr. Singleton said rabies often dies out during the summer only to spring back with increased vigor in the fall.

"We don't know why, but rabies can come back stronger than ever, and it doesn't pay to take chances."

He said "the disease is prevalent in animals which are at the peak of their production cycle."

KEMPSEY, England (CP)—Francis Rea, celebrating his 100th birthday in this Worcester-shire community, gave this remedy for old age: "I started smoking at the age of 8 and I haven't stopped since."

## U.S. Aircraft Manufacturers Crowd Ottawa For Orders

By DAVE MCINTOSH  
—Canadian Press Staff Writer

OTTAWA (CP)—United States aircraft manufacturers are converging on Ottawa in droves these days.

The word has spread: The Canadian government is about to make up its mind, perhaps this week or next, on purchase of a new American plane for the RCAF air division in Europe.

Firms whose presidents are here include Lockheed, Grumman, McDonnell, Northrop, Republic and the Convair division

of General Dynamics. Far from all these top wheels in the aircraft business get to see a cabinet minister.

Usually they move through the echelons of the defence production department, going from heads of divisions to assistant deputy ministers to deputy minister and then, if they're lucky, to Defence Production Minister O'Hurley.

Seldom has Ottawa seen such a hard sell on any product.

WON'T GET RICH  
Actually, the U.S. company

which gets the contract won't get a great deal of money because the plane selected will be built in Canada.

The U.S. firm will get a royalty amounting to some five per cent of the selling price. But it will gain a bargaining lever for possible sales to other countries, contracts for technical advice and the like and other benefits.

The companies know that the government wants more defence contracts from the U.S. for Canadian firms. And thus they are offering juicy subcontracts for Canadian defence manufacturers.

Once the government selects the plane it wants, the domestic battle between Canadair Limited, Montreal, and Avro Aircraft Limited, Malton, Ont., for the

contract of some \$250,000,000 for 200 planes will break out in full fury.

LONDON (CP)—Nearly 1,000,000 Americans will be visiting Britain each year by 1963, says Ralph Reed, president of the American Express Company.

"Britain could be earning £200,000,000 a year from American travellers."

LOWESTOFT, England (CP)—People buying tinned Japanese salmon in this East Anglian town don't need to worry about slivers of what appeared to be glass in the tins.

The medical officer says they are crystals of magnesium ammonium phosphate, completely harmless. The crystals form naturally in certain tinned salmon.
